Job Title: Statistical Analyst

Location: Guelph

Type of Position: Co-Op Placement

Job

Information: RinkNet's been operating a successful hockey scouting system for 14 hockey seasons. We are looking to hire a candidate who will be dedicated, creative and efficient in managing this position. For more information on us please visit www.rinknet.com.

Compensation: An hourly wage based on the position being offered as well as the candidate's education and related experience.

Requirements: RinkNet is looking for a statistical enthusiast with extensive knowledge of the game of hockey. Will be working closely with the programming department to develop a statistical based program. Needs to be self disciplined and creative. Will need to shape algorithmic formulas to apply to real life scouting purposes. Co-op placement based in Guelph, ON.

Education:

Enrolled in a 4 year Statistical or Mathematical Program, post-secondary program.

Other Skills:

We are looking for a dedicated individual that will take pride in their work. Can work independently as well as in a group. Quick learner, self-motivated, and ability to manage multiple tasks at once.
